

spring-book (0.0.1)

Maksim Kostromin

Version 0.0.1, 2018-09-05 15:31:10 UTC

Table of Contents

1. Introduction	1
2. Implementation	2
2.1. Starter monolith	2
2.2. 01-monolith-starter	2
3. Links	3

Chapter 1. Introduction

SB — It's a spring-boot facebook clone application (sets of applications), where we will try go from simple monolith app to scalable micro-service system. By applying SOLID and agile principles, CQRS, event-driven and DDD techniques we will build fully functional, stable and production-ready app

Chapter 2. Implementation

2.1. Starter monolith

2.2. 01-monolith-starter

TODO
